Dear Rex:

JDG Consultants conducted extensive evaluations of the MT. Gilead Church Road property (41+ acres) in Chatham County, N.C. for the purpose of locating sites for individual onsite ground absorption wastewater treatment and disposal systems. We have identified sixteen (16) lots with initial system sites and repair/replacement areas. The Chatham County Health Department has reviewed and approved each of these lots as proposed.

Sincerely,

John D. Gray, R.S. (# 535)
