Mr. Damon Webb  
NCDOT - Asheboro  
P.O. Box 1164  
Asheboro, N.C. 27204

RE: Shamblee Subdivision; Phase-3

Dear Mr. Webb;

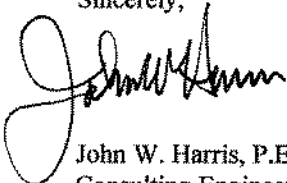

This letter is to certify that the above referenced subdivision has completed the following construction in accordance with the requirements of Chatham County and NCDOT.

The Project was divided into three phases, phase 1 being the lots which access the existing highway (SR-2167), and phase 2 being the main road (street "A") into the subdivision from the eastern entrance (off SR- 2165) to the intersection (+/- Sta. 9+50) and includes the proposed cul-de-sac (street "B"); Phase 3; being the remainder of street "A"; comprising approximately 1243 linear feet (from Sta. 9+50 to Sta. 12+43).

The phase 3 portion of street "A" has been graded and paved with appropriate open ditch drainage design as noted on the approved design-construction plans. This portion of the project was constructed in substantial compliance with NCDOT standards as noted in the Subdivision Roads Manual. The Density and thickness tests will be forwarded to you by the contractor for your review.

If you should have any questions or need additional information, please give me a call.

Sincerely;

John W. Harris, P.E.  
Consulting Engineer
