Keith:

Per Mr. Robert Flynn's request I am sending you this e-mail in regards to the impact the proposed zoning change and construction additions at Fearrington Village will have on the North Chatham Fire Department. I have spoken to Deputy Chief Mark Riggsbee, North Chatham Fire Department, who has also reviewed the proposed plan and Chief Riggsbee has advised me that the proposed project will have little to no impact on the North Chatham Fire Department's ability to provide fire protection services. The proposed project will also have no effect on the Chatham County Fire Marshal's Office in providing fire prevention inspection services. If I can be of further assistance to you in this matter, please contact me. Thank-You.

Tom

Lynn,
I believe that the soils report for Fearington Place is adequate at this time. Further testing will be required later for a system of this size. This testing is very costly and in my opinion should not be required at this time. A similar shopping center that was previously approved was not required to do this testing.

Thomas

Andy/Thomas: I received this e-mail from Nick Robinson regarding Fearington Place soil report. Can you send me an e-mail letting us know if the report submitted was adequate for zoning review. Thanks, Lynn

Lynn:

Did you or Keith ever receive what you needed from Thomas Boyce regarding the in-ground drip system for Fearington Place?

Thanks.

Nick
