Jason:
Here are my comments on the rezoning parcels.

Lee-Moore Oil Co.: W reviewed this parcel for commercial development in 2004 (ER 04-0411) and didn't recommend any survey.

Walter Lewis: No recorded sites are within the parcel and it is unlikely that any important sites are present.

McLean Family: There are 2 recorded sites located in the southeast corner of the parcel. The sites are 31CH831 and 31CH832. They were recorded by Environmental Services, Inc. but they haven't submitted forms yet, so I don't know what they are. There are likely to be other sites on the property, but if soils are eroded, then they may not be significant. Scott Seibel at ESI can likely tell you what the sites are if you need to know. They may have been hired by the developers.

George Farrell, Jr.: Site 31CH155 is located on the property. It was recorded in 1966 by an amateur. It is a Middle Archaic site. I don't know if the site is still there or not and it was never evaluated for significance.

I hope the above is of some use. I will be back in the office on September 25th if you need more information.
