RE: wetlands delineation for Arcadia

Dear Steve,

The wetlands delineation as shown on the enclosed map details the wetlands on the site. All wetlands are inside the stream buffers shown. Except the stream channel, all wetlands are along the perennial stream adjacent to lots 9 & 10. No permits are needed since the creek crossing being used is existing and can be improved without a 404 permit per ACoE. If you have additional questions please contact me.

Sincerely,
Neal Floyd
