Re: Crown Castle International Annual Communication Tower Plan Submittal
Search Ring 7897-3555
Search Ring 7904-3579v2
Search Ring 7920-3577

Dear Angela:

As per your request, enclosed please find a compact disc containing electronic versions of the four (4) maps submitted by Crown Castle International for the three (3) above-referenced search rings.

In addition, for each of the three (3) search rings we are pleased to provide revised RF propagation maps which should better illustrate the need for new telecommunications towers within the proposed search rings. For each search ring we have submitted two (2) RF maps – one (1) map showing the RF coverage from existing towers in the vicinity of the search ring, and one (1) map showing the RF coverage that will result from the construction of a new tower in the proposed search ring. Please find enclosed twenty-six (26) copies of these maps. These maps should be substituted for the previously provided RF maps.

Finally, we would appreciate it if you would please send back with our courier a copy of the search ring map for the proposed Sprint Nextel search ring, which appears to be located in the vicinity of Crown’s proposed search ring 7897-3555.
