

**Petition to Chatham County Planning Board
For July 10, 2007 Meeting.**

We the undersigned request that the Chatham County Planning Board rescind the recommendation of the Chatham Planning Board Staff to add a 60' public right of way access road from the 530 acre McLean land to the Fitch/Barber development. This right of way could result in significant additional construction and non-Ferrington traffic (potentially 2000 vehicle trips per day) through Ferrington Village neighborhoods. The increased traffic could jeopardize the safety of residents and guests driving or walking on roads used by this outsider traffic (South Langdon, Millcroft, East Camden, Weathersfield, Village Way, etc.) as well as have a negative effect on the unique character and quality of life in Ferrington.

Petition to Chatham County Planning Board
For July 10, 2007 Meeting.

We the undersigned request that the Chatham County Planning Board rescind the recommendation of the Chatham Planning Board Staff to add a 60' public right of way access road from the 530 acre McLean land to the Fitch/Barber development. This right of way could result in significant additional construction and non-Ferrington traffic (potentially 2000 vehicle trips per day) through Ferrington Village neighborhoods. The increased traffic could jeopardize the safety of residents and guests driving or walking on roads used by this outsider traffic (South Langdon, Millcroft, East Camden, Weathersfield, Village Way, etc.) as well as have a negative effect on the unique character and quality of life in Ferrington.

Subject: Re: FW: Proposed Adjacent Development Access Threatens Fearington Roads

Diane:

Thanks for getting back to me. If you are not the person to send the email, then please let me know. Just in case you are then please advise the powers to be that we are opposed to the proposed development access.

Thank you.

**Petition to Chatham County Planning Board
For July 10, 2007 Meeting.**

We the undersigned request that the Chatham County Planning Board rescind the recommendation of the Chatham Planning Board Staff to add a 60' public right of way access road from the 530 acre McLean land to the Fitch/Barber development. This right of way could result in significant additional construction and non-Ferrington traffic (potentially 2000 vehicle trips per day) through Ferrington Village neighborhoods. The increased traffic could jeopardize the safety of residents and guests driving or walking on roads used by this outsider traffic (South Langdon, Millcroft, East Camden, Weathersfield, Village Way, etc.) as well as have a negative effect on the unique character and quality of life in Ferrington.
