Subject: development of parcels 70288 and 73739

Dear Ms. Sears:

Thank you for contacting the Chatham County Historical Association about your plans to develop parcels 70288 and 73739. We understand that you are aware of no structures or gravesites on the property.

As I mentioned in our conversation, evidence of former human habitation often surfaces only after the land is more thoroughly examined. Should you find such evidence, in the form of structures or their remains, or gravesites, as your project moves forward, please contact the Chatham County Historical Association right away. Our interest is in preserving or documenting these traces on the land of former us and occupancy.

The Chatham County Historical Association appreciates your sensitivity to the preservation of local history.
