Ben , See if this is what you need.

fred

Request by Nicolas P. Robinson for a three year (3) extension of the development schedule for "The Glens" to extend the final plat deadline for Phase 2 to August, 2012, the final plat deadline for Phase 3 to August 2013 and the final plat deadline for Phase 4 to 2014. Do each of these phases include stormwater management and stream buffers? I think that if they want to go this far out into the future with delaying final plat and construction, they make the effort to meet our new standards.
