

HENDERSON PLACE

CHATHAM COUNTY ENVIRONMENTAL REVIEW BOARD

The Owner voluntarily agreed to have an environmental assessment made. It was not required at that time. The Owner submitted to the Chatham County Environmental Review Board reports of his environmental assessments made by private consultants, the Corps of Engineers, the State of North Carolina and the permit drawings for Sediment and Erosion control, the N.C.D.O.T. Roadway Design and the Subdivision Plan.

These were submitted in April, and he attended or was represented at the April Environmental Review Board meeting, the June Environmental Review Board Subcommittee review meeting and the June full Environmental Review Board review meeting.

The Environmental Review Board has reviewed the project and they made and distributed their report dated July 9, 2008 to the Planning Board, County Commissioners, Mr. Barber and others.
