

## **Appearance Commission Meeting...04-14-2010**

- Attending were Angela Birchett, Sue Schwartz, Al Cooke, Davis Andrew, Grim Hobbs, Kitty Griffin and Ginny Gregory
- Presenting were Chris Ehrenfield, Brian Ehrenfield and Jason Dell, and Mark Ashness with Design by CE Group...Governors Village, Parcel C, Retail and office mix (pre- approved by Governors Club)

The over all design met all of our guidelines.

We suggested Lace Bark Elm or Southern Sugar Maple to replace the Willow Oaks on the plan. They are huge drinkers and would destroy the hardscape over time. We suggested Loropetalum to replace the Privet planned due to its' invasive nature.

The other plant material was excellent. The pocket garden was a real plus for this design. The lighting and signage appeared to comply with county ordinances.

All present concurred that the design was sound and met our standards. They plan to have no irrigation. They were warned that the first year was crucial in terms of watering and that they were responsible for long term life of the design.
