

Chatham County Appearance Commission Meeting  
July 13, 2011

Members Present: Caroline Siverson, Al Cooke, Davis Andrews, Sue Schwartz (Acting Chair)

Presenters: Cindy Perry, Attorney; Michael Gress, Owner

Mr. Gress and Ms. Perry presented documents to show the proposed conversion of an existing brick building on Mr. Gress' property to a storage facility for his pool and landscaping business. The landscaping plan to increase the density of screening met with approval by members of the CCAC. The only suggestion was that if and when Mr. Gress adds additional grasses that he not use Miscanthus which is on a list of invasive species, but that he use other species such as Panicum. The CCAC appreciates Mr. Gress' preparation for the meeting and the wealth of plant materials that he has installed and plans to install.
