

Petition for Second Entrance to Legend Oaks Subdivision

Dear Chatham County Planning Board Members:

We, the current homeowners residing in Legend Oaks Subdivision, have recently become aware of the plans for the Phase III extension of the subdivision. We believe, at the time of the original hearings regarding Phase III that no homeowners were present, as there were no existing homes located within 400 feet of the proposed extension.

We have concerns for the plans for only one entrance into the subdivision for the following reasons:

- **In case of emergency, such as downed trees, explosion, fire or other life-threatening hazard, two entrances would help ensure that emergency vehicles would be able to get into the property.**
- There are no existing sidewalks in the neighborhood. Residents walk their pets, push strollers and use the streets for walking/jogging. The Increase traffic on Legend Oaks Drive from contractors and future residents has potential safety impact.
- To gain access into the neighborhood from southbound 15/501, residents must make a U-turn south of the neighborhood to head north on 15/501. To exit the neighborhood to go southbound on 15/501, requires residents to go north on 15/501 and then make a U-turn onto 15/501. U-turns are a potential safety hazard and now more residents/contractors will be making these turns. Traffic on 15/501 is steadily increasing with the southerly expansion of Chapel Hill.
- Contractors have been observed using excess speed while driving through the neighborhood. This will increase as they hurry to exit from the back of the neighborhood.
- Observing the plats for Phase II and III, there could be a possibility for a Phase IV extension to connect with Peak View Place and Victory Park Drive, thus further increasing the traffic on Legend Oaks Drive.
