Hello Michelle,

We are getting close to submitting our Final Plat for the Fieldstone Subdivision. I am writing to request that you provide confirmation to Lynn in Planning that we have completed our obligations related to the public water system installed on this project. Here's a quick summary of where we stand:

- Water line construction was completed in June of 2009 for the entire subdivision.
- On 13 Jul 09, we submitted our final as-built and certification package to Roy Lowder.
- On 23 Jul 09, NCDENR issued their final approval letter (attached).
- On 5 Aug 09, Roy Lowder confirmed that he had everything he needed from us to close out the water installation (see attached email).

Thanks for you help and please let me know if you have any questions.

Regards,

George J. Retschle, P.E., LEED AP
