Discussion & Analysis

The request is for final plat approval of “Rutherford Close” at Fearington, Section X – Area K, with a financial guarantee for completion of erosion control measures. Under the pre-2008 Subdivision Regulations, a developer may request a final plat approval with a financial guarantee for completion of the remaining work once a minimum of 40% of the required infrastructure has been completed and the public health and safety is not endangered. Alan R. Keith, P. E., Diehl & Phillips, P. A. has certified to the county that the work is over 95% complete for Area K and the remaining costs are for erosion control measures. The county attorney will review and approve the form of the financial guarantee prior to final plat recordation.

The plat meets the requirements of the Subdivision Regulations for a final plat review.

Recommendation:

The Planning Department recommends granting final plat approval of *Rutherford Close at Fearington, Section X, Area K*, and approval of the request for a financial guarantee with the following condition:

1. The plat not be recorded until the county attorney has approved the form of the financial guarantee and the contract.
