WRITTEN COMMENTS:

Insert written comments here: The cell phone reception in the Del Webb community is unacceptably poor. The availability of quick, efficient, and reliable means of communication is critical to the safety and well-being of the senior citizens who live here.

I understand the NIMBY principle. No one wants an ugly structure in his back yard. But cell phone towers can be disguised to look like pine trees, or hidden inside tall buildings.

And, in the end, everyone wants reliable cell phone access. It's part of modern life, just like roads, railroad tracks, airports, housing developments, shopping centers, and office parks.

We can't "just say no" to cell towers.

It is not acceptable for us to continue with the current abysmal level of cell phone service.

We need a cell tower ASAP.

WRITTEN COMMENTS:

Insert written comments here: Tonight, 02/18/2013, the Board of commissioners is scheduled to discuss the Cell tower located close to The Carolina Preserve. I am a firm believer that the lack of good solid cell phone coverage is necessary for the good of, security of and emergency communications is a must. When conventional land line service is out and cell service is the only way for residents to communicate it is a necessary means of communications. Consequently I urge that the cell tower be approved.
