PROPOSED USE(S) AND PROPOSED CONDITIONS FOR THE SITE: Please select the use/s category from Section 10.13 of Zoning Ordinance

Applicant seeks an Amendment to CUP as described in detail in the application materials. No changes proposed to Area A. Applicant proposes to keep the same health center use for Area B but proposes a s.f. maximum of 130,000 and an increase in the number of allowed hospital beds from 100 to 120. Area C calls for no CUP changes. The CUP currently allows for 750 residential units. Currently there are 526 residential units within Carolina Meadows. After demolition of the existing health center, it is anticipated that approximately 100 residential units will be constructed in this internal core area. This construction will be impervious neutral.

It is important that the applicant provide information to explain how the permit request or revision satisfies the following required five findings. **All applications shall contain the following information.** Please use attachments or additional sheets in order to completely answer these findings if necessary. If there is a finding that you feel does not apply to this submittal, please mark with "N/A" for not applicable. **Please use the "Materials Checklist" to complete each finding.**

- 1. The use requested is among those listed as an eligible conditional use in the district in which the subject property is located or is to be located.

See attached.

- 2. The requested conditional use permit or revision to the existing permit is either essential or desirable for the public convenience or welfare.

See attached.

- 3. The requested permit or revision to the existing permit will not impair the integrity or character of the surrounding or adjoining districts, and will not be detrimental to the health, safety or welfare of the community.

See attached.

- 4. The requested permit will be or remain consistent with the objectives of the Land Conservation and Development Plan.

See attached.

- 5. Adequate utilities, access roads, storm drainage, recreation, open space, and other necessary facilities have been or are being provided consistent with the County's plans, policies and regulations.

See attached.

You must meet with the Chatham County Appearance Commission and hold the Community Meeting BEFORE you can submit the application to the Planning Department.

Please check the boxes below once these meetings have been held:

Section B. SUBMITTAL INFORMATION AND PROCEDURE

- (1) Sixteen (16) completed application packets and all supporting information shall be submitted to the Planning Department at least forty-five (45) days prior to the Public Hearing. A digital copy of the application packet shall be submitted pursuant to the Planning Department Digital Document Submission Guidelines.
 - (2) The Planning Department shall, before scheduling the public hearing, ensure that the application contains all the required information as specified in Section 5 of the zoning ordinance.
 - (3) The Planning Department shall have fifteen (15) days from the date of submittal to notify the applicant that the application is complete for scheduling the public hearing.
 - a. If the Planning Department determines the information is not sufficient for review, the Department shall notify the applicant of the specific information that is required for review.
 - b. The Planning Department shall take no further action on the application until the applicant submits the required information.
 - c. Once the applicant corrects the identified deficiencies, the applicant shall resubmit to the Planning Department at least 45 days prior to the next Public Hearing meeting, and the Department shall have 15 days to review the information and notify the applicant that the information is sufficient for review.
 - d. A determination that an application contains sufficient information for review as provided in this subsection (b) does not limit the ability of other county agencies, the Planning Board or the Board of Commissioners to request additional information during the review process.
 - (4) The application is reviewed by the Technical Review Committee prior to the Public Hearing for comments and recommendations from other agencies.
-

Section C. SUPPLEMENTAL INFORMATION REQUIRED WITH THE APPLICATION and REQUIRED INFORMATION TO BE INCLUDED ON THE SITE PLAN

PLEASE INCLUDE ALL OF THE FOLLOWING (CHECK OFF). Please check the list below carefully before you submit:

- (1) The application shall include a **site plan**, drawn to scale, with supporting information and text that specifies the actual use or uses intended for the property and any rules, regulations, and conditions that, in addition to the predetermined ordinance requirements, will govern the development and use of the property. The following information must be provided, if applicable:
 - a. Information showing the boundaries of the proposed property as follows: Unchanged.
 1. If the entire parcel will be zoned, a GIS or survey map and parcel number of the subject property.
 2. If only a portion of the parcel will be zoned, a boundary survey and vicinity map showing the property's total acreage, parcel number, current zoning classification(s) and the general location in relation to major streets, railroads, and/or waterways,
 - b. Legal Description of ~~proposed conditional zoning district~~; Unchanged.
 - c. All existing and proposed easements, reservations, and rights-of-way; Unchanged.
 - d. Proposed number and general location of all building sites, their approximate location, and their approximate dimensions; See Area B Site Plan.
-

- e. Proposed use of all land and structures, including the number of residential units and the total square footage of any non-residential development;
- f. All yards, buffers, screening, and landscaping required by these regulations or proposed by the applicant; **(SECTION 12 LANDSCAPING & BUFFERING REQUIREMENTS)**
- g. All existing and proposed points of access to public and/or private streets; Unchanged.
- h. Stream buffers required through this or other Chatham County Ordinances or Regulations, and other Local, State, or Federal regulatory agencies. Delineation of areas within the regulatory floodplain as shown on the Official Flood Insurance Rate Maps for Chatham County;

- N/A i. Proposed phasing, if any; N/A
- j. Generalized traffic, parking, and circulation plans; **(SECTION 14 OFF STREET PARKING)** See Area B Exhibit
- k. Proposed provision of utilities; Unchanged.
- l. The location of known sites of historic or cultural significance within or adjacent to the project area, including any structure over 50 years old; Unchanged.
- m. The approximate location of any cemetery; Unchanged.
- n. Proposed number, location, and size of signs; **(SECTION 15 SIGN REGULATIONS)** Unchanged.
- o. Location and description of any proposed lighting on the project site with a note that any lighting will comply with Section 13; **(SECTION 13 LIGHTING STANDARDS)** Unchanged.
- p. The location of existing and/or proposed storm drainage patterns and facilities intended to serve the proposed development, and impervious surface calculations; and see materials provided.

N/A q. Environmental Impact Assessment pursuant to **Section 11.3** of the Zoning Ordinance, if applicable. If you are or will be disturbing two or more acres in connection with this application, you are required to submit and EIA with this application. Failure to do so will result in the delay of scheduling your request for public hearing or may be returned completely for re-submission.

The above information is required to be shown on the site plan submitted with this application. If, for some reason, any of the required items above are not included on the site plan, reasons for excluding those requirements must be given.

- (2) In the course of evaluating the proposed use, the Zoning Administrator, Planning Board, Chatham County Appearance Commission, or Board of Commissioners may request additional information from the applicant. This information may include, but not be limited to, the following:
- a. Proposed screening, buffers, and landscaping over and above that required by these regulations, as well as proposed treatment of any existing natural features;
 - b. Existing and general proposed topography;
 - c. Scale of buildings relative to abutting property;
 - d. Height of structures;
 - e. Exterior features of the proposed development;
 - f. A traffic impact analysis of the proposed development prepared by a qualified professional. The traffic impact analysis shall follow the NCDOT TIA Analysis Guidelines, and shall also include consideration for non-motorized and public transportation;
 - g. Any other information needed to demonstrate compliance with these regulations.

NOTE: The Zoning Administrator has the authority to waive any application requirement where the type of use or scale of the proposal makes providing that information unnecessary or impractical.

STATEMENT OF PURPOSE

Founded in 1983, Carolina Meadows is a nationally accredited, not-for-profit continuing care retirement community residing in a beautiful setting in Chatham County, North Carolina. Carolina Meadows is just 20 minutes from Raleigh-Durham International Airport and within easy driving distance of North Carolina's mountains and coastline. In order to keep enhancing the community to keep abreast with lifestyle and technological advances; Carolina Meadows has submitted several modifications to the original CUP over the life of the project.

Most recently Carolina Meadows received a modification to the existing CUP in October of 2008. That revision provided for the following: **(information on improvements completed since the CUP revision in bold)**

Area "A": Relocation of the maintenance facility and construction of up to 70 residential units (35 duplexes). **The maintenance facility has been relocated and 58 residential units were completed (with no plans for further expansion in Area "A").**

Area "B": Approved for a 90 bed Healthcare facility not to exceed 98,000 SF. In order to better respond to technological benefits achieved in the past (6) years since prior approval; we are proposing to increase the square footage of the Health Care Center up to 130,000 SF with up to 120 beds. The increase in square footage will be accomplished by providing a basement along with additional square footage on the (3rd floor). The building height will not exceed 36' at roof edge and 50' at roof peak. The building will have a fire sprinkler system. With the impervious surface area still not exceeding the prior agreed upon percentage of 36% for Area "B".

Area "C" (Existing Core Campus): Expansion and revitalization of various core campus buildings and infrastructure without increasing the impervious square footage (no net increase in impervious coverage). **There is no change in CUP for Area "C". We anticipate +/- 100 additional residential units to be constructed once the existing Health Center is demolished. The current CUP cap of 750 units would allow for up to 224 units to be constructed. As agreed upon, any improvements in this area will be impervious neutral.**

Overall: Maximum buildout of up to 750 residential units. **No change**

This CUP revision reflects proposed improvements allowing Carolina Meadows to remain as one of the leading Senior Care Facilities in our region. The project limits are unchanged and no additional driveway access is necessary to accommodate the additional (30) beds in the Health Center. Other than the increase in square footage of the Health Center, no other substantial changes are proposed.

General Application Requirements (from Submission Materials Checklist)

1. Location: See boundary drawing and proposed sketch plan.
 - a. Public highways serving site. Unchanged
 - b. Private roads serving site. Unchanged
 - c. Current Zoning. Unchanged—CU-RA 40 (R-1 underlying zoning) with a conditional use permit for a planned residential development, originally approved in 1983.
 - d. Watershed designation and impervious surface % allowed. Unchanged.
 - e. Major Wildlife Areas. Unchanged.
 - f. Size of Site. Unchanged.
 - g. Current utility or other easements assigned to the site. Unchanged.
 - h. Current Use of Site. Unchanged.
 - i. Description of current contents of site. The project currently includes 526 residential units (447 independent living and 79 assisted living), a health center, main campus core and associated structures and amenities.
 - j. Other Conditional Use Permits for the site. Conditional use permit was originally approved in 1983. The CUP was amended several times, the most recent amendment being in 2008.

2. Description of Use. The use will continue to be as an approved planned residential development – a continuing care retirement community. Applicant seeks an increase of the number of allowed hospital beds from 100 to 120 and an increase in the potential size of the new health center (previously approved) from 98,000 s.f. to a maximum of 130,000 s.f.

3. Start and Completion Projections. At this time Applicant anticipates the health center to be started in approximately the Spring of 2016 and completed by approximately Fall 2019. The improvements to Area C are ongoing and will be staged over time in coordination with the market until completed. The time frame is a good faith estimate by the Applicant based on current market conditions and other factors. Should these factors change in the future, the time frames may be shifted accordingly.

4. Reference to Existing County Plans. Unchanged.

SITE PLAN REQUIREMENTS

The requested changes to the currently approved site plan relate to Area B (new health center site). The 2008 Amendment to the CUP included a site plan for the new health center. Incorporated into this application is the proposed revised site plan for Area B.

The changes include a re-design of the footprint of the structure to accommodate current design and care trends for health center uses. The maximum square footage is proposed to be increased from 98,000 s.f. to 130,000 s.f., most of which increase would be achieved by providing a basement along with additional square footage on the third floor. The requested changes are impervious surface neutral to that which is currently entitled.

Specific Conditional Use Permit Application Requirements (Five Findings)

All information and evidence submitted in support of the five findings required for the issuance of the original conditional use permit for Carolina Meadows and for the amendments thereafter, including the most recent amendment 2008 is incorporated herein by this reference. The changes proposed to the conditional use permit have to do with the site plan and size of the health center and also the number of hospital beds allowed. This application does not propose to add any land to the PUD or to change the overall number of residential units permitted in Carolina Meadows. Carolina Meadows, as modified if this application is approved, will continue to meet all of the five findings.

Finding #1: The use requested is among those listed as an eligible conditional use in the district in which the subject property is located or is to be located.

The requested uses are all allowed uses within the conditional use district and, as such, are eligible conditional uses within the district.

Finding #2: The requested conditional use permit or revision to the existing permit is either essential or desirable for the public convenience or welfare.

- A. **Need and Desirability:** The site plan revisions for the health center are needed and desirable for the continued vitality of Carolina Meadows as a continuing care retirement center. The site plan revisions will allow Carolina Meadows to build a state of the art health center which will be a magnet to ensure the continuing economic vitality of the project. This will have appreciable continuing positive impacts on Carolina Meadows as a significant employer in the County and provide improved service to the existing and future residents of Carolina Meadows. Applicant incorporates all of the need and desirability information from the 2008 application. The revisions do not negatively change the need and desirability analysis of the existing approved conditional use permit.
- B. **Survey of Similar Uses:** Applicant incorporates all of the information from the 2008 application. The revision does not change the number of approved residential units in the community and, therefore, does not change the impact of Carolina Meadows on similar uses, or vice versa.
- C. **Public Provided Improvements:** No additional public improvements are needed to support the requested revisions to the conditional use permit.

Finding #3: The requested permit or revision to the existing permit will not impair the integrity or character of the surrounding or adjoining districts, and will not be detrimental to the health, safety or welfare of the community.

This application does not propose to add any land to the project or to change the number of residential units permitted in the project. The site plan has revised with

specific intent to be mindful of adjoining property owners. The intended vegetative buffers in Area B will be maintained and the impervious coverage is not being increased. With no change in the overall density, nor any revision of the vegetative buffers, the proposed revision will have no negative impacts to adjoining properties. The revision will have no adverse impact on emergency services, traffic, visual impacts and screening, lighting, noise, chemicals and biological and radioactive agents or the signage for the community. Applicant incorporates the information submitted with the 2008 application in this regard.

Finding #4: The requested permit will be or remain consistent with the objectives of the Land Conservation and Development Plan.

As this application does not add land to the project, nor increase impervious coverage, nor change the number of residential units permitted in the project, it does not change the relation of the already-approved conditional use permit to the Land Conservation and Development Plan, nor does it change watershed or flood considerations. Applicant incorporates the information submitted with the 2008 application in this regard.

Finding #5: Adequate utilities, access roads, storm drainage, recreation, open space, and other necessary facilities have been or are being provided consistent with the County's plans, policies and regulations.

The existing project is currently served by the Chatham County Water System and by Aqua NC for sewer. There will not be any material increase in water or sewer demand beyond what would be needed for the number of currently approved residential units and the currently approved health center. Likewise, since the proposed changes are neutral on impervious surface, the project continues to meet the applicable stormwater requirements. Applicant incorporates any additional complementary information submitted with the 2008 application in this regard.
