Re: **Extension of Authorization to Construct**
Legend Oaks SD
Water System No. NC0319126, Chatham County

Dear Mr. Horne:

This letter is in response to a request for an Extension of the Authorization to Construct for **Legend Oaks SD, Serial No. 09-00765**. The Authorization to Construct is extended and will expire on October 17, 2016.

The Extension of the Authorization to Construct is valid only if the site conditions and the previously approved engineering parameters have not changed, as required by 15A NCAC 18C .0305 (a). The Extension of the Authorization to Construct and the engineering plans and specifications approval letter shall be posted at the primary entrance of the job site before and during construction.

Approval must be secured from the Department before any construction or installation if:

- Deviation from the approved engineering plans and specifications is necessary; or
- There are changes in site conditions affecting capacity, hydraulic conditions, operating units, the function of water treatment processes, the quality of water to be delivered, or conditions imposed by the Department in any approval letters.

Upon completion of the construction or modification and in accordance with Rule .0303, the applicant shall submit a certification statement signed and sealed by a registered professional engineer stating that construction was completed in accordance with approved engineering plans and specifications, including any provisions stipulated in the Department's engineering plan and specification approval letter. Prior to Final Approval, the applicant shall submit a signed certification stating that the requirements in 15A NCAC 18C .0307 (d) and (e) have been satisfied and if applicable, a completed application for an Operating permit and fee. Once the certification statements and operating permit application and fee, if applicable, are received and determined adequate, the Department will grant Final Approval in accordance with Rule .0309 (a). Therefore, no construction, alteration, or expansion of a water system shall be placed into service until Final Approval has been issued by the Department.

If we can be of further assistance, please call (919) 707-9100.

Sincerely,

Siraj Chohan, P.E.
