Mr. Mitchell presented the plan for a multiple- building storage and boat sales project. A 3-story self storage building fronts on US 64, with 2 single-story storage buildings behind. Covered boat and RV storage lots are behind the buildings and to the West including one lot fronting on US 64. East of the 3-story building and fronting on US 64 is a building devoted to boat sales and repair. CCAC recommends that applicants increase and supplement the front buffers, that the West boundary buffer be kept in its natural state and that signage be limited to 18 ft height above ground.
