PSNC Proposed Utility Station

The following changes were made to the proposed plant list specified:

Green Giants are to be replaced by Red Cedar
Buford Holly to be replaced by Waxed Myrtle
Crepe Myrtles to be replaced by Yaupon Holly

It was agreed that Green Chain Link fence will be used.

The intended look of the planting around the fencing should be natural and native so as not to call attention to the site. It should just fade into the landscape rather than stand out to drivers on 15/501.
