Diana,

NCDOT does not foresee any issues approving a driveway permit for your property on Hortons Pond Road in Chatham County. This email shall serve only as a preliminary approval. A formal approval will be needed before any work can be performed on NCDOT right of way.

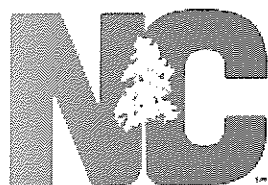

Please let me know if I can be of further assistance.

Thanks,

Hi Diana,

I spoke with Cory Larsen and you were correct, you do not need anything from the local Environmental Health office as you are interested in installing a wastewater recycling system for a business.

If you decide not to use a recycling system please let me know and I can walk you through that process as well.

Thank you and good luck with your business!! I would love to have a "tour" of the wastewater system when it is installed☺
