**Subject:** boat storage

I live on Beaver Creek Road near Popular Point Recreation area. This road has a lot lot of traffic on it on any given day. It can get very congested in the summer months. There is all ready one boat storage facility and another on the way. I don't feel that another one is a good idea. The noise and the traffic will make this a very undesirable location to live in and I feel it will drop property values. It will also cause some safety issues with traffic. The location is close to a curve in the road were visibility could be limited. Traffic tends to be moving at a fast pace in that area. I do not support this storage facility in any form. Thanks, Keith Lawrence
