Applicant: City of Manhattan Beach

Filing Date: February 23, 2015

Property Location: Downtown and Coastal Zone

Project Description: The proposed Specific Plan covers the Downtown area of Manhattan Beach, within the City's Coastal Zone. The Plan area encompasses approximately 40 blocks covering 51.62 acres and is bounded by 15th Street to the north, Ardmere Avenue to the east, 8th, 9th, and 10th Streets to the south, and The Strand to the west. In addition to the adoption of the Specific Plan, there are various revision to the Local Coastal Program Coastal Zone Land Use Policy Map and Zoning Map, as well as other Maps and text Amendments for consistency with the City's adopted Municipal Code Zoning designations and Map. The revisions will also reconcile the designation nomenclatures between the Municipal Code and Coastal Program and Plan.

Environmental Determination: The City prepared an Initial Study and a Mitigated Negative Declaration (MND). The MND was posted for public review and comment from August 25 to September 23, 2016. The City recommends adoption of the MND and Mitigation Monitoring Program.

NOTICE OF A PUBLIC HEARING BEFORE
THE PLANNING COMMISSION OF THE CITY OF
MANHATTAN BEACH TO CONSIDER
LOCAL COASTAL PROGRAM (LCP)
AMENDMENTS FOR 28 PROPERTIES IN THE DOWNTOWN
TO BE REDESIGNATED AS HIGH DENSITY RESIDENTIAL
CONSISTENT WITH THE GENERAL PLAN, ZONING CODE AND
HISTORIC AND CURRENT USES

A public hearing will be held before the Planning Commission for the project described below.

Applicant: City of Manhattan Beach

Filing Date: February 23, 2015

Property Location: Downtown (Coastal Zone)

Project Description: A small defined area of Downtown along 10th and 11th Streets and Highland Avenue with 28 properties (See map on back) will be redesignated/rezoned from *Downtown Commercial* to *High Density Residential* to reflect historic and actual land uses, current development trends and for consistency with the Housing Element. This area has been residential since at least the 1930's, and is currently entirely residential and has been since at least 1995. In 2004 these Amendments were adopted by the City and submitted to the California Coastal Commission (CCC) for approval. However the CCC determined that they were incomplete and the Amendments were never certified. This Amendment will finalize the 2004 actions and reconcile the designations and long-standing actual land uses.

Environmental

Determination: In accordance with the California Environmental Quality Act ("CEQA"), CEQA does not apply to approvals necessary for the adoption of an LCP amendment. This amendment to the City's LCP must be certified by the CCC before it takes effect. In addition, an Initial Study/Mitigated Negative Declaration was prepared, which analyzed the amendments to the LCP.
