COUNCIL MEMORANDUM NO. 90-69

FROM: Director of Municipal Services

DATE: September 10, 1990

SUBJECT: 1990 Post Census Local Review

The Census Bureau has provided us with preliminary Housing Unit and Group Quarters Population Counts. In April a member of my staff and I did a housing count (windshield method) so that we would have numbers of housing units to compare with the Feds.

Last week we compared the results and then went back out into the field to recount approximately 10 blocks where we noted large differences. We adjusted our numbers based on this recount. I must point out that we basically ignored group quarters in our check.

Presumably the Census Data should be more accurate than our windshield survey and therefore a difference of 14 units is insignificant and I recommend no challenges to the Census Data. September 22, 1990 is our deadline for filing a challenge.
