COUNCIL MEMORANDUM NO. 91-78

FROM: Deputy Administrator

DATE: October 29, 1991

RE: Vehicle Replacement Program

During the FY92 budget process Council requested to be informed of the progress toward the City vehicle replacement program. Additionally, some members of Council objected to the City acquiring a vehicle that would primarily be used for administrative purposes such as document transportation, office supplies, parts and material trips to Anchorage and employee travel to meetings and conferences.

The Administration plans to continue the fleet replacement program by advertising for bids on a 3/4 ton utility bed pickup that will be primarily used for water system work. The 1982 Ford 1/2-ton pickup will be surplus. The bid specifications are written so that Ford, Chevrolet and Dodge vehicles can meet the requirements.

The recommendation for bid award will be presented to Council upon receipt and compilation of the bids.

Robert E. Harris
Deputy Administrator

No objection to proceed
