COUNCIL MEMORANDUM NO. 92-25

FROM: Mayor Stein

DATE: February 28, 1992

RE: Resolution No. 92-08, Street Classification Map

At their regular February 25, 1992 meeting, the Planning and Utilities Commission unanimously approved the official street classification map for submittal to the City Council.

The Municipal Code Chapter 14.10 gives Council responsibility for approving the map. Approval and amendments are accomplished by resolution. A search of documents by the Clerk's office found no record of any earlier action approving a road classification map.

The code defines four street classifications by primary function and frequency of use: residential, commercial, collector and arterial. The attached resolution classifies all Wasilla streets. The map on display in Council chambers is consistent with the resolution.

The map was developed using local knowledge, limited traffic count data from the Borough engineer and two earlier undated draft maps from the mid-1980's. The Commission reviewed the proposed classification map at their January 27 and February 13 meetings.

We respectfully ask for your approval of Resolution 92-08.

John C. Stein, Mayor
