COUNCIL MEMORANDUM NO. 92-34

FROM: Deputy Administrator

DATE: March 4, 1992

RE: Purchase of Pumper Truck

The Public Works Department advertised for a used septic tank pumper truck in local and Anchorage papers and mailed notices to thirteen (13) pumper truck firms. We received one response which was submitted by Alpine Pumper Service of Wasilla. The owner states that he recently purchased a new truck as the truck offered has been fully depreciated as a business expense.

The truck appears to be in excellent condition except for brake pad wear on the rear set of duals. Estimated cost of repair is \$750. It may cost as much as \$1,000 to have the truck repainted.

Recommend that Council amend the amount of the appropriation for loan to the sewer utility from \$40,000 to \$35,000 and authorize Administration to purchase the pumper truck for \$33,000.
