COUNCIL MEMORANDUM NO. 92-82

From: Mayor Stein
Date: August 6, 1992
Subject: Street Lights Phase III, Part 1

The State approved our request for \$50,000 to install Phase III street lights. With the \$12,000 appropriated by the Council, the total of \$60,000 should install about 40 new lights. Advertisements in the July 29 *Frontiersman* and the City news report have generated four new requests to date. A new map is on display in Council chambers.

Administration asks for Council approval to install the following lights prioritized from leftover Phase II nominations and new requests. The Part 1 list of 20 lights represents about one-half of the Phase III project. Remaining new lights can be done later. City will contract with M.E.A. using their A.P.U.C. approved rates and tariffs for street lights. Installation is conditioned on acceptable M.E.A. cost estimates.

Your approval is requested so that lights can be ordered and installed before freeze-up.

John C. Stein, Mayor

CITY STREET LIGHT NEEDED?

Governor Hickel and Legislators Kerttula, Menard, Larson and Carney have provided \$50,000 in State matching grant money for 40 new street lights. This illumination project is funded in part by local tax revenue budgeted by the Wasilla City Council.

The Mayor is seeking nominations for new street light locations. Priority will be given to intersections, school bus stops and security problem areas.

If you see the need for a street light within the Wasilla city limits contact the Mayor's office at 373-9055. To receive council approval and be installed before winter light requests must be made at once.

John C. Stein, Mayor
