COUNCIL MEMORANDUM 95-81

From: Jack Felton, City Engineer

Date: October 4, 1995

Subject: Bid Award, Glenwood Avenue Paving C.I.P.

On September 13, 1995, two sealed bids were opened for the Glenwood Avenue Paving C.I.P. project. Due to financial considerations, the project was divided into two phases. The first phase will complete all of the earthwork on the project and the second phase will provide curb and gutter, D-1, asphalt paving and striping. I have attached a copy of the apparent low bid for your review.

The Council has provided the following funds for this project;

FY94 Grant and Match Carryover	\$157,736
FY95 Grant and Match Carryover	203,304
FY94 Bike Trails	<u>96,569</u>
Total Available	\$457,609

Recommendation:

That the Council accept the total bid presented by Summit Paving.

That the Council authorize the administration to award Phase 2A of the project at this time.

That the Council request that the administration return for a separate authorization for Phase 2B, when a specific source of funding can be identified. Administration proposes that Glenwood Phase II \$160,000 State and \$40,000 City be identified as FY97 capital grant priorities.

John T. Felton, P.E.

SECTION - 100.02 PROJECT SCHEDULE AND TIME OF COMPLETION

This project is phased into two sub phases due to budget appropriation considerations. The two phases can be generally described as phase 2A consisting of all dirt work and phase 2B consisting of all concrete and pavement work. The various bid items making up the two phases are detailed in the bid schedule.

Phase 2A can commence as soon as the Contractor receives the notice to proceed. Phase 2B, however, may not proceed until the Contractor has received written notification to proceed from the Engineer. The anticipated start date is 1 July 1995. The project completion date of 31 July 1996 is predicated up on this start date. Should there be delays in granting the phase 2B start date, the project completion date will be adjusted appropriately.
