The public is invited to observe the proceedings of the Committee which are initially scheduled for Saturday, February 10, 1996. All meetings will be advertised as required by state law for public meetings. The public could include council members, if they wish to observe the process. It might be advisable for council members in attendance to observe only, since any final decision will have to come back to the Council for consideration.

A new ordinance will be introduced at the Feb. 12, 1996 regular Council meeting. The recommendations of the Committee can then be presented at a public hearing scheduled for Feb. 26, 1996. The public would be afforded an opportunity to comment on the recommendations at that time. It is expected that the Council, if it approves the recommendations of the Committee, will authorize and direct the preparation of a new landscape design for the site.
