COUNCIL MEMORANDUM 96-81

From: John T. Felton, Public Works Director/City Engineer
Date: August 21, 1996
Subject: Request for paving the approaches to Susitna Street

The Council requested that I investigate the possibility of paving the approaches to Susitna Street at its intersection with Knik Goose Bay Road. I reviewed the site and have determined that it is possible to complete this project this year. The easterly approach to the intersection was the one under consideration; however the westerly approach needs to be done at the same time. There is just as much traffic on that side of the intersection.

I would propose that we pave a 40' x 24' approach on each side with 20' radii corners. This will allow for both commercial and residential traffic to better enter Knik Goose Bay Road.

I discussed the financing with Dean. He suggested that the project, estimated at \$5,500, be funded by excess interest from the CIP Fund balance.

RECOMMENDATION:

The Public Works Department recommends that the Council authorize the paving of both east and west approaches from Susitna Street to Kink Goose Bay Road and pay for the project using excess interest from the CIP Fund balance.

John T. Felton
Public Works Director/City Engineer
