**REVIEWED BY MAYOR DIANNE M. KELLER:** *Dianne M. Keller*

**FISCAL IMPACT:**  yes \$51,895 or  no Funds Available  yes  no  
 Account name/number: 160-4320-432.45.21  
 Attachments: Engineering Proposal

**SUMMARY STATEMENT:** This project will provide a secondary access for Lake Lucille Drive to S. Mack Drive near the Multi-Use Sports Complex. Currently, the residents on the west end of Lake Lucille have access through substandard right-of-way (30 feet wide). This project will provide improved access with 60 feet of right-of-way. The completed engineering design will support state and federal lobbying request for construction funding in FY08.

The proposed route is over the water and sewer utility extensions for the Sports Complex within existing easements. The utility extensions were engineered by USKH, and USKH has the soils and survey data from that project. With their previous experience, USKH will be able to provide the best engineering value for the project over this alignment.

**STAFF RECOMMENDED ACTION:** Council is requested to authorize the Mayor to execute a contract with USKH in the amount of \$51,895 for the Upper Road Extension engineering services.
