INFORMATION MEMORANDUM NO. 92-08

TO: Council
FROM: Deputy Administrator
DATE: March 25, 1992
RE: Department of Labor

On March 25, I received the annual visit from representatives of the Alaska Department of Labor. They inquired about planned construction projects, reviewed changes in the labor laws, and made strong reminders about the requirements to pay Davis-Bacon wages. Attached is a document they provide to use as a guide as to the type of road work that requires Davis-Bacon wages unless performed by a City employee.

Robert E. Harris
Deputy Administrator

The areas considered under the prevailing rates of pay are:

- 1) Hauling new fill or materials
- 2) Hauling used fill or material to an area located away from the road or group of streets upon which work was currently being performed. Fill or material will be used on a road in the new area.
- 3) Hauling discarded fill or material to a dumpsite.
- 4) Grading and/or compacting a road surface which has new or used fill deposited from either a supplier, excavated ditches, roads located some distance away from the road or group of streets currently being worked on.
- 5) Installation of manholes.
- 6) Installation of new or used culverts.
- 7) Filling potholes.
- 8) Making a new road where there was no road.
- 9) Digging a new ditch where no ditch existed previously.
- 10) Removing old blacktop; replacing with new material.
- 11) Installation of cross culverts.
- 12) Installing storm drains.
