INFORMATIONAL MEMORANDUM 96-07

From: Jack Felton, Public Works Director, City Engineer

Date: February 7, 1996

Subject: Sewer Grant/Loan Program Status

The Mayor has requested that I report on the status of the sewer grant/loan program. To date there is \$183 left in the account for this program. The Council did not see fit to authorize additional funds for this program when they passed Ordinance 95-57 amending the program budget.

The Public Works Department presently has three requests for assistance under this program. All three are for a commercial class system. This means that the applicants would be eligible for \$16,000 (\$8,000 Grant/ \$8,000 Loan). The Council would have to authorize the expenditure of \$48,000 for Public Works to service these three requests.

John T. Felton
