### INFORMATIONAL MEMORANDUM 96-10

From: John T. Felton, Public Works Director/City Engineer

Date: April 3, 1996

Subject: City Hall Americans with Disabilities Act (ADA) Report

I have received and reviewed the report prepared by Architects Alaska for the ADA Facility Compliance Survey for the City Hall/Head Start area. The report details needed improvements and repairs to bring the areas in to compliance with the Act.

The initial Architect's Estimate for completing these improvement/ repairs is from \$60,000 to \$80,000. The reason for the wide range is a lack of final design and definitive scope of work. There was no intrusive testing so the Architect can not be sure of the total scope of work for some of the improvements.

I am continuing to meet with Mr. Wolf to tighten up this report as much as possible. This is an excellent report and the City has been well served by this donated effort.

The initial report is in my office and available for review at any time. As soon as we have tightened up these costs, I will compile a menu of repairs and costs for the Council to review.

---

John T. Felton  
Public Works Director/City Engineer
