### INFORMATION MEMORANDUM NO. 96-30

From: Mayor Palin  
Date: November 4, 1996  
Subject: City Snow Plowing - Berms in Driveways

Since the snow plowing season has arrived I want to let Council know the City's position on plowing snow berms in driveways.

Public Works historically has not been responsible for berms in driveways. In the past we have only cleaned driveways of handicapped or disabled persons. Most of the roads are plowed with road graders with snow gates attached. This cuts down on snow left in driveways.

During the last two small snows, snow removal was done with the five cubic yard sander truck. It does not have the capacity for a snow gate so snow is left on the side of the road much like the State, Borough and other cities do when they plow.

If you receive inquiries or complaints, please refer them to Jack Felton, Public Works Director, 373-9095.
