

SUBJECT: Alternative School Sewer Main Construction

REQUESTED BY: Public Works

PREPARED BY: Public Works

DATE: October 2, 2000

FOR AGENDA OF October 9, 2000

SUMMARY:

A supplemental appropriation is requested in Ordinance 00-56 to fund the City-portion of a new sewer line to the remodeled alternative school. Spenard Builder's Supply will also be added to this system. This six inch line will extend from Lake Lucille Dr. under the railroad tracks through Spenard Builders yard and under the Parks highway to the school. Over-sizing the line to six inches will allow expansion to the west and north as these areas develop. It is anticipated that the line will be built to Spenard Builders this fall while construction to the school will be done next construction season.

The school district will fund \$35,000 and Spenard Builders will fund \$42,500 for the line. City of Wasilla previously agreed to pay \$25,000 for the installation. The additional \$28,000 is to pay for over-sizing of the line from two to six inches to allow for future extensions.

FISCAL IMPACT: ___No ___x Yes, amount requested: \$ 53,000 Fund: General Fund, fund balance

RECOMMENDED ACTION:

Council is requested approval of Ordinance 00-56 for appropriation of \$53,000 for the construction of a sewer line to the alternative school and over-sizing of the line for future growth.
