

SUBJECT: Accepting City Maintenance On New Streets.

REQUESTED BY: Public Works

PREPARED BY: J. Newman

DATE: August 17, 2001

FOR AGENDA OF: August 27, 2001

SUMMARY:

With the rapid growth and new development the city is experiencing, we are requesting that the council amend the code to allow the public works director to accept streets for maintenance that are constructed to established standards, without further approval of the council.

Our practice is to accept for maintenance only those streets, which are paved and meet Wasilla road construction standards. We encourage all developers to construct paved streets in order to lower maintenance costs and eliminate unhealthy dust conditions within the city.

FISCAL IMPACT: No Yes, amount requested: \$
