NEEDS ASSESSMENT FOR THE WASILLA PUBLIC LIBRARY

WHY A LARGER LIBRARY FACILITY IS NEEDED

- To better serve the needs of our library patrons
- Provide an environment more conducive for learning, research, studying, and various other academic interest
- To meet the service goals of the library, a larger facility is needed to relieve severe space limitations we currently face
- Space limitations hamper collection development, books and shelving
- Some example of areas where increased space is needed
 - Computer work stations
 - Work stations for the physically challenged library patrons
 - Work stations with electrical outlets where patrons can plug in and use their personal laptop computers
 - Service areas space limitations
 - Seating, study areas, study carrels, storytelling, programming, desks, tables, chairs, loungers

Currently we have seating for approximately 48 patrons. I recommend seating capacity of 120, for current and future projected population growth.

INCREASED POPULATION OR LEGAL SERVICE AREA SERVED BY THE WASILLA PUBLIC LIBRARY FROM THE YEAR 2000 TO THE YEAR 2020+

The population or "Legal Service Area" served by the Wasilla Public Library is determined by a formula by the Alaska State Library. The benchmark used for projecting the size of the population to be served up to the year 2020 was determined by taking an average of the "Legal Service Area" computed by the State Library from 1990 through 2002. The current population served is 24,207 persons. The population increase was determined using the same percentage increases as those projected for the Matanuska-Susitna Borough by the Alaska Department of Labor. The progression of the increase in the population to be served by the Library is seen in table 5.

TABLE 5

Wasilla Public Library Growth in Population Served From the Year 2000 to the Year 2020

	<u>2000</u>	<u>2005</u>	<u>2010</u>	<u>2015</u>	<u>2020</u>
Population Served	24,207	27,596	32,343	38,165	44,821
Growth in Percentage	14%	33.7%	57.6%	85%	

SERVICE GOALS

The following service goals show how the library proposes to fulfill the terms of its mission statement which states "The Library contributes to building a sense of community and provides opportunities for improving quality of life by providing access to a broad range of resources designed to meet the educational, professional, intellectual, cultural and recreational needs of the area's diverse, rapidly growing population."

The Library

- Strives to create a welcoming atmosphere in which to serve all users.
- Provides access to information through books, electronic resources and reference assistance.
- Provides access to information for persons with disabilities and those with visual or auditory impairment.
- Preserves cultural and regional heritage through collection development.
- Provides a connection between patrons and global resources.
- Supports students of all academic levels in their studies.
- Supports independent learning.
- Supports literacy within the community through library resources and by providing space for programs.
- Works with community members and groups to provide literacy outreach.
- Encourages young people to develop a love of reading and learning through programming, library resources and by offering assistance in locating materials of interest.
- Provides materials and assistance for recreational readers of all ages.
- Acts as a center for community meetings and activities.
- Provides educational and cultural programs for all ages.
- Reaches out to at-risk youth through programming, collection development and volunteer opportunities.
- Provides outreach for the elderly and homebound.

ASSUMPTIONS:
 1. Additional Staffing required due to new space:
 A. Additional 1.0 FTE on January 1st, 2003
 B. Additional 1.0 FTE Added for Fiscal Year 2005
 C. Additional 1.0 FTE Added For Fiscal Year 2006
 D. Total Staff Increase for FY03 Thru FY07 = 3.0 due to expansion.

2. Property insurance will decrease by approximately \$7,000 per year.
 3. Lessor will provide utilities (not including telephone).
 4. Operating supplies will increase due to expansion of library.
 5. Books & Periodicals expenditures will be 10% higher per year with expansion.
 6. Furniture needs due to expansion will be purchased in FY 03.
 7. Lessor will provide janitorial services
 8. Library Building will be sold by 7/01/03 (estimated value based on PW Data)

CONCLUSION

The Library is an essential part of the area it serves. Its mission is to

1. Contribute to building a sense of community by acting as a focal point for meetings, activities and cultural and educational programming and events.
2. Provide opportunities for improving quality of life for all users by offering a broad range of resources that support the educational process, literacy, intellectual and professional endeavor, the business community and the cultural and recreational needs of a diverse, rapidly growing population.

The Library supports the economy of the community through its ability to draw residents to the area. Businesses along the routes of travel to and from and adjacent to the Library will be used because of convenience. This draw could also stimulate business starts in proximity to the Library.

This document has shown that to effectively deliver services to the people, and for the Library to take its place as an effective supporting member within the framework of the community, the following areas will need to be addressed:

1. A short-term solution requiring a facility large enough to support the services and house the collection and technology required by the population projected for the year 2010.
2. An enlarged and updated collection.
3. An increased level of technology.
4. Expanded electronic resources, including electronic databases for study and research and software that will make library resources accessible to the physically handicapped and the visually and hearing impaired.
5. Staffing needed to provide services and support.
6. A long-term solution leading to a permanent home for a Library capable of serving the population projected for the year 2020.

Without these changes, the pressure of a steadily growing population on an already overburdened facility and staff will result in the steadily decreasing ability of the library to fulfill its mission and meet its goals for service to the community.

2007	1,113,596		322,000	28.91%	756,316	67.92%	35,280	3.17%

Resolution Regarding the Proposed Move of the Wasilla Public Library

For presentation to the Wasilla City Council and the Matanuska-Susitna Borough Assembly
September 9, 2002

WHEREAS the Wasilla Public Library building has extreme and unresolvable problems, including but not limited to:

- Lack of space to safely hold an adequate collection, let alone the existing collection

Industry standards indicate a collection of 89,000 items is needed to adequately serve today's population¹ yet the current collection numbers 55,000 and these items are crowded into an area so small that it jeopardizes staff and patron safety;

- Lack of space in which to provide an adequate level of service

Industry standards indicate a facility of 31,000 square feet is needed to adequately serve today's population² yet the current facility is 7,700 square feet in size;

- Lack of computer workstations and space to place them:

Industry standards indicate a need for 15 computer stations for today's population³ yet currently there are 5;

- Lack of access to parking:

Industry standards indicate a need for 124 parking spaces today⁴ yet currently there are 14;

- Air quality that is so poor that it jeopardizes the health of the staff and the patrons; and

WHEREAS these problems are so severe that they demand immediate attention; and

WHEREAS a search by the City of Wasilla for currently available space in which to house the library resulted in a single location which was deemed acceptable to them; and

WHEREAS the location to which the City Administration desires to move the library, namely, the former Sears store at the Carrs Mall, offers an immediate remedy to some of the current deficiencies of the library; and

¹ Extrapolated from *Wasilla Public Library Present and Future*, p. 16

² Extrapolated from *Wasilla Public Library Present and Future*, p. 25

³ Extrapolated from *Wasilla Public Library Present and Future*, p. 18

⁴ Extrapolated from *Wasilla Public Library Present and Future*, p. 5

WHEREAS the proposed new location for the library has a number of deficiencies of its own, including:

- Congested parking area in an accident-prone area of the City;
- Less space than industry standards call for (16,000 square feet versus 31,000 square feet)
- Less than optimal aesthetic appeal as a cozy community library, which is what patrons and the public have indicated a desire for;
- Location relative to other public centers and residential neighborhoods which may or may not be convenient and accessible by users; and

WHEREAS the City of Wasilla is prepared to enter into a ten-year lease agreement for the space at the Carrs mall; and

WHEREAS no long-term plan for library services for the Wasilla area exists; and

WHEREAS approximately 80% of the people who currently depend on the Wasilla Public Library live outside the city limits of Wasilla;

NOW THEREFORE BE IT RESOLVED that the Friends of Wasilla Public Library do not object to the proposed move of the Wasilla Public Library to the Carrs Mall location; and

BE IT FURTHER RESOLVED that we applaud the City of Wasilla administration for continuing to recognize as members of its city library "service area" those people who live beyond city boundaries;

BE IT FURTHER RESOLVED that we recognize that despite the expansion, the proposed location for the library will not meet the public library needs of the population in its service area, and we therefore urge the Wasilla City Council and the Matanuska-Susitna Borough Assembly to immediately initiate action towards a long-term library services plan that will establish a means for meeting the future library needs in this rapidly growing part of the Borough.
