### **1. Advance/Reimbursement Payment**

Upon full execution of this Grant Agreement, a State treasury warrant in an amount not to exceed 20% may be released upon request. Additional State treasury warrants will be released on a reimbursement basis upon receiving and approving a Grantee's financial/progress reports. The Department will reimburse the Grantee for costs incurred during the reporting period, in accordance with this Grant Agreement. The Department will not reimburse without approved financial/progress reports, prepared and submitted by the Grantee on the form provided in Attachment A. Before approving the financial/progress report for payment, the Department may require the Grantee to submit documentation of the costs reported (e.g., vendor billings, signed timesheets, invoices). Should earned payments during the terms of this Grant Agreement be insufficient to recover the full amount of the advance, the Grantee will repay the unrecovered amount to the Department when requested to do so by the Department, or at termination of the Grant Agreement.

### **2. Direct Vendor Payment**

In some instances the Department may authorize the use of direct payments to specified vendors for large purchases. Direct vendor payments will be authorized only when, in the judgment of the Department, the Grantee is unable to secure the purchases through cost reimbursable means. Before a direct vendor payment can be considered for authorization, the Grantee must submit a "Request for Direct Vendor Payment" form that identifies the name of the vendor to be paid directly; the vendor's address; the vendor's federal tax identification number; and the amount of the payment. This form must be accompanied by (1) an executed purchase agreement between the Grantee and the vendor, and (2) an original invoice that identifies specifically the goods or services for which payment is being requested. The agreement must identify all terms and conditions of the purchase and include a complete materials list and an acceptable shipment date.

The Department will authorize prepayment of not more than 50% of the total cost identified in an approved purchase agreement between the Grantee and the vendor for those goods and services provided in advance of delivery to the Grantee. The Department may authorize full payment to vendors whose goods/services have been provided prior to or at the time the request for direct payment is received from the Grantee. When a prepayment of up to 50% has been made, the Department will authorize the balance due against the purchase agreement after the following conditions have been met:

- a. The goods/services have been delivered to the Grantee;
- b. The Grantee has conducted an inventory and submitted to the Department a certification of acceptability along with a complete "Request for Direct Vendor Payment" form;
- c. The Grantee has submitted an original invoice from the vendor for the balance due.

Any direct vendor payment authorized during a report period will be reflected on the Grantee's Financial/Progress Report for that month in the *Direct Vendor Payments (DVP) Paid This Period* column across from the appropriate cost category. The "Request for Direct Vendor Payment" form can be obtained from the Department electronically or in hard copy.

### **3. Withholding of Ten Percent (10%)**

The Department may withhold ten percent (10%) of the amount in Section I until the Department determines that the Grantee has satisfactorily completed the terms of this grant agreement, including all required reporting and submission of photographs of the project.

## **Appendix F**

### **State Fire Marshal Review**

#### **The Plan Review Process**

Construction, repair, remodel, addition, or change of occupancy of any building/structure, or installation or change of fuel tanks must be approved by the State Fire Marshal's Office before ANY work is started.

Residential housing that is three-plex or smaller is exempt from this requirement.

Exception: The following jurisdictions have accepted a deferral for total code enforcement and plans should be submitted directly to the city: Anchorage, Juneau, Fairbanks, Kenai, Seward, Kodiak, Sitka, and Soldotna

Plans and specifications regarding the location of the building or structure on the property, area, height, number of stories, occupancy, type of construction, interior finish, exit facilities, electrical systems, mechanical systems, fuel storage tanks and their appurtenances, automatic fire-extinguishing systems, and fire alarm systems must be submitted by the owner or owner's representative to the State Fire Marshal for examination and approval. This review does not address structural considerations or accessibility requirements. Mechanical and electrical review is limited to that which is necessary to confirm compliance with fire and life safety requirements.

A copy of the plan review approval certificate must be posted as required in 13 AAC 55.100(b). It is prohibited to occupy a building for which plans have not been examined and approved.

If any work for which a plan review and approval is required has been started without first obtaining plan review and approval, an additional special processing plan review fee of \$100 is charged for the first violation. The special processing plan review fee for a subsequent violation by the same person is an additional charge equal to the amount of the standard plan review fee for the project.

The assistance provided under this Grant Agreement shall not be used in payment of any bonus or commission for the purpose of obtaining approval or concurrence under this contract provided, however, that reasonable fees of bona fide technical consultant, managerial, or other such services, other than actual solicitation, are not hereby prohibited if otherwise eligible as project costs.

**Article 18. Termination by Mutual Agreement**

This Grant Agreement may be terminated, in whole or in part, prior to the completion of contract project activities when both parties agree that continuation is not feasible or would not produce beneficial results commensurate with the further expenditure of funds. The Department will determine whether an environmental review of the cancellation is required under State and/or Federal law. The parties must agree on the termination conditions, including effective date and the portion to be terminated. The Grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Department shall make funds available to the Grantee to pay for allowable expenses incurred before the effective date of termination.

**Article 19. Termination for Cause**

If the Grantee fails to comply with the terms of this Grant Agreement, or fails to use the grant for only those purposes set forth herein, the Department may take the following actions:

- A. Suspension – After notice in writing by certified mail to the Grantee, suspend the grant and withhold any further payment or prohibit the Grantee from incurring additional obligations of grant funds, pending corrective action by the Grantee or a decision to terminate. Response must be received within fifteen (15) days of receipt of the written notice.
- B. Termination – Terminate the grant in whole or in part, at any time before the final grant payment is made. The Department shall promptly notify the Grantee in writing of its determination to terminate, the reason for such termination, and the effective date of the termination. Payments made to the Grantee or recoveries by the Department shall be in accordance with the legal rights and liabilities of the parties.

**Article 20. Withdrawal of Funds**

In the event funding from the state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date of this Grant Agreement and prior to normal completion, the Department may terminate the agreement, reduce funding, or re-negotiate subject to those new funding limitations and conditions. A termination under this article shall be implemented under the same conditions as a termination under Article 19 of this Attachment.

**Article 21. Recovery of Funds**

In the event of a default or violation of the terms of the Grant Agreement by the Grantee, the Department may institute actions to recover all or part of the project funds paid to the Grantee. Repayment by the Grantee of grant funds under this recovery provision shall occur within thirty (30) days of demand.

All remedies conferred on the Department by this agreement or any other instrument or agreement are cumulative, not exclusive, and may be exercised concurrently or consecutively at the Department's option.

**Article 22. Disputes**

Except as otherwise provided in this agreement, any dispute concerning a question of fact arising under this agreement that is not disposed of by mutual agreement shall be decided by the Department, which shall reduce its decision to writing and mail, or otherwise furnish a copy thereof, to the Grantee. The decision of the Department shall be final and conclusive.

This "Disputes" clause does not preclude the consideration of questions of law in connection with the decision provided for in the preceding paragraph provided that nothing in the Grant Agreement shall be construed as making final the decisions of any administrative official, representative, or board on a question of law.

**Article 23. Jurisdiction**

This Grant Agreement shall be governed by the laws and statutes of the State of Alaska. The venue of any suit hereunder may be in the Superior Court for the First Judicial District, Juneau, Alaska.

**Article 24. Ownership of Project/Capital Facilities**

The Department makes no claim to any capital facilities or real property improved or constructed with funds under this Grant Agreement and, by this grant of funds, does not and will not acquire any ownership interest or title to such property of the Grantee. The Grantee shall assume all liabilities arising from the ownership and operation of the project and agrees to hold the Department and the State of Alaska harmless from any and all causes of action arising from the ownership and operation of the project.

**Article 25. Site Control**

If the grant project involves the occupancy and use of real property, the Grantee assures that it has the legal right to occupy and use such real property for the purposes of the grant, and further that there is legal access to such property.

**Article 26. Insurance**

The Grantee is responsible for obtaining any necessary liability insurance. In addition, the Grantee shall provide and maintain Workers' Compensation Insurance as required by AS 23.30 for all employees engaged in work under this Grant Agreement. The Grantee shall require any contractor to provide and maintain Workers' Compensation Insurance for its employees as required by AS 23.30.

**Article 27. Subcontracts for Engineering Services**

In the event that the Grantee subcontracts for engineering services, the Grantee will require that the engineering firm certify that it is authorized to do business in the State of Alaska. In the event that the engineering firm is also the project administrator, the Grantee shall require that the bond or insurance shall be for not less than the amount of the entire project.

**Article 28. Governing law**

This Grant Agreement is governed by the laws of the State of Alaska. The Grantee shall perform all aspects of this project in compliance with the appropriate laws and regulations. It is the responsibility of the Grantee to ensure that all permits required for the construction and operation of this project by the Federal, State, or Local governments have been obtained.

**Article 29. Budget Flexibility**

Notwithstanding the provisions of Article 11, Attachment C, the Grantee may revise the project budget in Attachment A without a formal amendment to this agreement. Such revisions are limited within each line item to a maximum of ten percent (10%) of the line item or \$10,000, whichever is less, over the entire term of this agreement. Such budget revisions shall be limited to changes to existing budget line items. Budget revisions may not be used to increase any budget item for project administrative expenses. Changes to the budget beyond the limits authorized by this provision may only be made by a formal amendment to this agreement.

**Article 30. Equal Employment Opportunity (EEO)**

The Grantee may not discriminate against any employee or applicant for employment because of race, religion, color, national origin, age, physical handicap, sex, marital status, changes in marital status, pregnancy or parenthood. The Grantee shall post in a conspicuous place, available to employees and applicants for employment, a notice setting out the provisions of this paragraph.

The Grantee shall state, in all solicitations or advertisements for employees to work on state funded projects, that it is an equal opportunity employer (EEO) and that all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, age, physical handicap, sex, marital status, changes in marital status, pregnancy or parenthood.

The Grantee shall include the provisions of this EEO article in every contract relating to this Grant Agreement and shall require the inclusion of these provisions in every agreement entered into by any of its contractors, so that those provisions will be binding upon each contractor or subcontractor.

**Article 31. Public Purposes**

The Grantee agrees that the project to which this Grant Agreement relates shall be dedicated to public purposes for its useful life. The benefits of the project shall be made available without regard to race, religion, color, national origin, age, physical handicap, sex, marital status, changes in marital status, pregnancy or parenthood.

If the Grantee is a non-municipal entity and if monies appropriated under this grant constitute the sole or principal funding source for the acquisition of equipment or facilities, the Grantee agrees that in the event a municipal corporation is formed which possesses the power and jurisdiction to provide for such equipment or facilities, the Grantee shall offer, without compensation, to transfer ownership of such equipment or facilities to the municipal corporation.

If the Grantee is a non-profit corporation that dissolves, the assets and liabilities from the grant project are to be distributed according to statutory law, AS 10.20.290-10.20.452.

**Article 32. Operation and Maintenance**

Throughout the life of the project, the Grantee shall be responsible for the operation and maintenance of any facility, equipment, or other items acquired under this grant.

**Article 33. Assurance**

The Grantee shall spend monies awarded under this grant only for the purposes specified in this Grant Agreement.

**Article 34. Current Prevailing Rates of Wage**

Certain grant projects are constrained by the provisions of AS 36. PUBLIC CONTRACTS. To the extent that such provisions apply to the project which is the subject of this Grant Agreement, the Grantee shall pay the current prevailing rates of wage to employees as required by AS 36.05.010. The Grantee also shall require any contractor to pay the current prevailing rates of wage as required by AS 36.05.010.

**Article 35. Severability**

If any provision under this Grant Agreement or its application to any person or circumstance is held invalid by any court of rightful jurisdiction, this invalidity does not affect other provisions of the contract agreement which can be given effect without the invalid provision.

**Article 36. Performance**

The Department's failure to insist upon the strict performance of any provision of the Grant Agreement or to exercise any right based upon breach thereof or the acceptance of any performance during such breach, shall not constitute a waiver of any rights under this Grant Agreement.

**Article 37. Sovereign Immunity**

If the Grantee is an entity which possesses sovereign immunity, it is a requirement of this grant that the Grantee irrevocably waive its sovereign immunity with respect to state enforcement of this Grant Agreement. The waiver of sovereign immunity, effected by resolution of the entity's governing body, is herein incorporated into this Grant Agreement.

**Article 38. Audit Requirements**

The Grantee shall comply with the audit requirements established by 02 AAC 45.010, set forth in Appendix A of this Grant Agreement.

**Article 39. Close-Out**

The Department will advise the Grantee to initiate close-out procedures when the Department determines, in consultation with the Grantee, that there are no impediments to close-out and that the following criteria have been met or soon will be met:

- A. All costs to be paid with grant funds have been incurred with the exception of close-out costs and any unsettled third-party claims against the Grantee. Costs are incurred when goods and services are received or contract work is performed.
- B. The last required performance report has been submitted. The Grantee's failure to submit a report will not preclude the Department from effecting close-out if it is deemed to be in the State's interest. Any excess grant amount that may be in the Grantee's possession shall be returned by the Grantee in the event of the Grantee's failure to finish or update the report.
- C. Other responsibilities of the Grantee under this Grant Agreement and any close-out agreement and applicable laws and regulations appear to have been carried out satisfactorily or there is no further State interest in keeping the grant open for the purpose of securing performance.

**Article 40. Americans with Disabilities Act**

The Americans with Disabilities Act (ADA) prohibits discrimination against persons with disabilities. Title I of the ADA prohibits discrimination against persons with disabilities in employment and provides that a reasonable accommodation be provided for applicants and employees. Title II of the Act prohibits public agencies from discriminating against individuals with disabilities in the provision of services, programs, or activities. Reasonable accommodation must be made to ensure or allow access to all services, programs, or activities. This section of the Act includes physical access to public facilities and requires that public entities must, if necessary, make modifications to their facilities to remove physical barriers to ensure access by persons with disabilities. All new construction must also be accessible to persons with disabilities. A public entity's subgrantees or contractors must also comply with the ADA provisions. Grantees are responsible for assuring their compliance with the ADA.

**Audit Regulations**  
**(Chapter 45. Grant Administration)**

**2 AA C 45.010. AUDIT REQUIREMENTS**

- (a) As part of the financial information required under AS 37.05.030, a state agency that enters into a financial assistance agreement to provide financial assistance to an entity shall, in coordination with any other state agency providing financial assistance to that entity, require that entity to submit to the Department of Administration through the state coordinating agency an audit of the recipient entity if that entity is subject to an audit under this section. The audit must be conducted and submitted as described in this section. In order to ensure compliance with this subsection, a state agency must include the audit requirements of this section in any financial assistance agreement subject to this subsection.
- (b) An entity that expends financial assistance with a cumulative total of **\$300,000** or more during the entity's fiscal year shall submit an audit report for the audit period to the state coordinating agency, by
- (1) the earlier of
    - (a) 30 days after the entity receives its audit report for the audit period; or
    - (b) nine months after the end of the audit period; or
  - (2) a later date than the date calculated under (1) of this subsection, if
    - (a) the state agency that provides the financial assistance agrees to the change of date; and
    - (b) the agreement under (a) of this paragraph is made in
      - (i) writing; and
      - (ii) advance of the date calculated under (1) of this subsection.
- (c) An audit required by this section must be conducted by an independent auditor, according to the following audit standards effective at the time of review for the audit period.
- (1) *Government Auditing Standards, 1994 revision* adopted by the comptroller general of the United States; or
  - (2) Generally accepted auditing standards, as accepted by the American Institute of Certified Public Accountants if effect as of January 1, 1998 for the type of entity being audited; or
  - (3) *State of Alaska Audit Guide and Compliance Supplement for State Single Audits, May 1998 revision*, prepared by the state coordinating agency.
- (d) The audit required under this section must report on the following: (1) The system of internal controls of the entity and the auditor's identification of reportable conditions and material weaknesses of the entity, using the applicable standards set out in (c) of this section; (2) the entity's compliance with applicable state statutes and regulations and applicable financial assistance agreements affecting the expenditure of the financial assistance; the report must identify findings and known questioned costs that exceed \$1,000 in the aggregate for all transactions of expenditures tested for the financial assistance being audited; (3) the entity's financial statements; and (4) the schedule of state financial assistance.
- (e) As part of the audit report required under this section, the entity must provide (1) written comments on any (A) findings; (B) known questioned costs; (c) reportable conditions, including material weaknesses; and (D) recommendations contained in the audit report; (2) the entity's plan for corrective action, if any findings are identified or any recommendations are made in the audit report; (3) the status of the entity's implementation of any plans for corrective actions related to (A) the audit reports required under this section for the fiscal year before the audit period; and (B) unresolved findings of audit reports required by this section for audit periods before those specified in (A) of this paragraph; and (4) a written explanation of the reasons why corrective action will not be taken if the entity does not intend to take corrective action on the findings and recommendations in any audit report required by this section.
- (f) An audit report required under this section need not evaluate the effectiveness of a program funded by state financial assistance. However, a program evaluation or financial monitoring may be conducted by the state agency or requested of the entity by the state agency that entered into the financial assistance agreement.
- (g) An audit required by this section must cover either (1) the entire operations of the entity; or (2) the program of the entity for which financial assistance was expended, if (A) the entity receives financial assistance from only one state program of a state agency; and (B) the entity does not expend the financial assistance being audited, for indirect costs, including allocations of indirect costs.

- (h) An entity shall provide the state coordinating agency with sufficient copies of each audit report to allow submission of a copy to each state agency providing financial assistance to the entity. The state coordinating agency shall determine if auditing standards have been met and shall forward a copy of the audit to the Department of Administration, upon request, and other appropriate state agencies. The state coordinating agency shall coordinate the assignment of the resolution to one state agency, if the exceptions concern more than one state agency. The applicable state agency providing financial assistance to the entity must meet its responsibilities under other law for ensuring compliance with the audit report.
- (i) Unless additional audit requirements are imposed by state or federal law, a state agency that provides financial assistance to an entity shall accept the audit required by this section in satisfaction of any other audit requirement. If additional audit work is necessary to meet the needs of a state agency, the audit work must be based on audits required by this section. Nothing in this subsection authorizes a state agency to seek payment from the entity for the additional audit work.
- (j) A third party that receives financial assistance through an entity, in an amount described in this section, is subject to the applicable requirements of this section. An entity that disburses \$300,000 or more in state financial assistance to a third party shall ensure that the third party complies with the requirements of this section. That entity shall also ensure that appropriate corrective action is taken within six months after a third party's noncompliance with an applicable state statute or regulation, or financial assistance agreement, is disclosed.
- (k) Repealed 7/1/98.
- (l) For purposes of this section, if an entity has not identified its fiscal year, that entity's fiscal year is July 1 through June 30.

## **Alaska Coastal Management Program—AS 46.40**

This chapter of the Alaska Statutes establishes a planning program for the use, management, restoration, and enhancement of the overall quality of the coastal environment. ## Appendix E Site Control

### 1. Site Control

The Grantee must provide evidence of site control for a project that involves any use of land, including but not limited to, construction, renovation, utility projects, fuel storage, roads and trails.

As a minimum requirement, the Grantee should obtain a "sufficient interest" that allows the Grantee the right to use and occupy the site for the expected useful life of the building, structure or other improvement. Generally, the interest obtained should be for at least 20 years. A sufficient interest depends upon the nature of the project and the land status of the site. Site control options are identified in Section 2.

For a project planned on land that is controlled by a public agency, the Grantee must obtain whatever authorization for use that is required by the public agency.

### 2. Site Control Options

Below are some examples of documents that may be used to satisfy site control requirements for various community facilities/projects. The terms and conditions contained in each document must be examined to determine adequacy for a specific project.
