

We are unable to attending this evening's Hearing. We are writing to support the efforts of neighbors Kate Bartolo and Kenneth DiGregorio (Neighbors) to work with restaurateur Chef Aitor (Applicant) to support the proposed new restaurant while assuring that risk of residential noise and other impacts to are prevented/mitigated. Assuming Applicant and Neighbors reach agreement, and the City adopts the Norma Triangle Neighbor's proposed clarified/new Conditions for Approval, we support dropping the request for a Hearing continuance. The Norma Triangle Neighborhood Association has already affirmed its support for this effort.

Our concern is rooted in the fact that the prior catering and adjacent surface parking lot uses generated substantial undue noise impacts on the neighboring properties, some of which residential structures are located at a zero-lot line.

Thank you for your consideration.
